A Brief Description of the Nurturing Network

"The Nurturing Network was founded to provide every woman in crisis with a positive alternative to abortion. This grassroots program is uniquely designed to respond effectively to the unique values, needs and circumstances of College and working women. TNN's international Network of volunteer Resource Members is dedicated to ensuring that no woman chooses abortion because she feels that she has no other choice."

Mary Cunningham Agee, TNN Founder and President

The Nurturing Network is an international charitable organization that responds to the immediate and comprehensive needs of women facing the crisis of an unplanned pregnancy. Founded and managed by President, Mary Cunningham Agee, the Nurturing Network's 48,000 volunteer Resource Members provide all of the practical support a woman needs to nurture her child's life *–and make the most of hers as well.*

During the past two decades, over 19,000 women and their children have been served through this grassroots Network that is active in all fifty states and in thirty foreign countries. Assistance is provided without charge and is available without regard to a person's race, creed or economic circumstances.

The Nurturing Network's objective is not a political one but a most practical one: To provide an authentic and life-affirming choice to women whose own support networks have let them down. Each woman served by TNN is empowered to move beyond her economic, emotional and social constraints in order to exercise her choice to have a healthy pregnancy and nurture the life of her child.

The Nurturing Network provides a wide array of individually-tailored solutions designed to meet the unique needs of each woman. Nurturing homes, medical services, legal assistance, counseling support, financial aid, and educational and employment opportunities are among the many resources offered without charge to those who contact the Nurturing Network for help.
