

AS YOU COUNT YOUR BLESSINGS . . . WILL YOU CONSIDER BECOMING ONE?

NETWORK OF PRACTICAL COMPASSION

"The time has come to infuse the most culturally-defining civil and human rights movement of our time with new insight and energy. We believe that women deserve better than just one option when faced with very difficult and life-altering life circumstances. The Nurturing Network's full-service program of practical support for mothers in crisis is the nation's pre-eminent network designed to offer hope and healing to college and working women seeking more hopeful alternatives for themselves and their children. I encourage you to join the 48,000 worldwide members of the Nurturing Network as we translate our love for women and children into practical compassion."

Mary Cunningham Agee
President and Founder

The Nurturing Network is an international charitable organization that **responds to the immediate and practical needs of a woman facing an unplanned pregnancy**. Over the past two decades, over 48,000 volunteer Member Resources have been made available to more than 19,000 mothers and children. Our Network Members are invited to open their homes, offer employment, facilitate College transfers and provide quality medical services and counseling. Currently, Network Members in your own community are helping to develop a "Cluster" of local resources that will provide the full range of support a mother in this vulnerable situation needs in order to choose life for her unborn child.

TNN's professional Staff coordinates this nationwide, life-affirming program by linking the practical support of thousands of Resource Members to the special needs of the women who call requesting help. A Client referred to a local "Cluster" of TNN resources may be a mother from your own community or someone from another part of the country who, for reasons of emotional safety or confidentiality, may need to relocate temporarily. Similarly, a woman from your own area may need to relocate and will have access to other Nurturing Network "Clusters" who are readily available to meet her unique needs.

The Nurturing Network is funded solely by private donations from individuals, corporations and foundations. Because of the generous gifts of time and talent from Network Members, TNN's management has been able to allocate every year an average of 90% of all expenditures directly to Client services. Recognizing that this compassionate program cannot exist on love and prayers alone or even on the generous gifts of time and talent by dedicated Network Volunteers, your generosity as a Donor is an additional important way that you can help.

There are many meaningful ways that we can lend our unique gifts and experience on behalf of the women who turn to the Nurturing Network for assistance. **We invite you to join with others in your community in responding to this vital need.**

How You Can Help:

-  Encourage your friends, colleagues, family members and other associates to support TNN by offering employment opportunities, medical services, a Nurturing Home, professional counseling or a financial contribution.
-  Provide an introduction to administrators, students or faculty members at a nearby College.
-  Facilitate the distribution of TNN Client Brochures at a University Student Health Center or local Women's Clinic and encourage counseling that consistently includes the Nurturing Network as a practical, life-affirming resource for women with unplanned pregnancies.

A VISION OF HOPE AND HEALING . . .

“A new dialogue is beginning to take place which centers on the roll of a healthy society in supporting women with unplanned pregnancies. I am convinced that lasting progress is being made as the voices of women are heard calling for a more compassionate alternative to abortion. We are poised at a pivotal moment in American history when together we will place the cornerstone an authentic and lasting culture of life.”
